

Osborn School District educates a multicultural, multilingual, and multiethnic community. Our students come from around the world, representing over 40 different countries, 30 different languages, as well as a vast number of cultures, traditions, and religions. Many of our refugees arrive to the United States from a number of war-torn countries.

To support the specialized needs of refugee children academically, emotionally, and socially, Osborn provides a number of special services for its refugee children and families. Some of the many services include:

- translation and/or interpretation of documents, conferences, and other important information
- small group and individualized academic instruction, cultural orientation, and English language learning
- summer school placement for English language learning and core academic skills
- parent information sessions on school expectations and norms
- immediate on-site interpretation for emergencies or as needed
- transportation to immunization clinics

Additional support services are provided as needed or when specifically requested.

For more information on Osborn's refugee population, contact the Language Acquisition Department at 602-707-2029.
