

Take action today to create a data-driven, flexible plan for supporting each student in the coming school year.

THE KEY TO SUCCESS?

Maximize **two essential structures** that you might already have in your district.

COMPREHENSIVE ASSESSMENT SYSTEM

A system of valid and reliable assessment tools varying in purpose promoting the careful selection of the right assessment at the right time to provide the right information to inform next steps.

MULTI-TIERED SYSTEM OF SUPPORT (MTSS)

A framework with a tiered infrastructure that uses data to help match academic and social-emotional behavioral (SEB) assessment and instructional resources to each and every student's needs.

ACTION

PROGRESS MONITORING ASSESSMENTS

Is the intervention working? Is it working fast enough?
Evaluate progress toward learning target per the rates of improvement for the specific skill being targeted by an intervention
Who: All students receiving Tier 2 or Tier 3 interventions

JUST-IN-TIME / SHORT CYCLE ASSESSMENTS

What should I teach next?
Part of formative assessment process; Confirm that specific learning has taken place and provide data to inform instruction that follows

Use data to measure effectiveness and make adjustments throughout the year
